

SERIGRAPH AND SUSTAINABLE MANUFACTURING

LEADERSHIP
THROUGH
RESPONSIBILITY
AND
STEWARDSHIP

SUSTAINABILITY LEADERSHIP

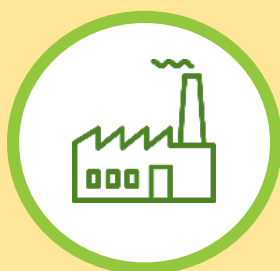

- Dedicated Environmental Manager
- Aggressive Environmental Goals
- Innovation and Partnerships
- Continuous Improvement

CERTIFICATIONS

*Serigraph
is the only
printer in the
US using
bio-filtration
to reduce VOC
emissions.*

Pollution Prevention:

- **65%** reduction of VOCs (2000-2019)
- Conversion to Latex and UV Inks

Waste Reduction

- **80%** of Serigraph's waste is recycled
- 100% landfill diversion for all scrap waste [92% recycled + 8% waste-to-energy]
- 84% less Hazardous waste sent for disposal

Energy Efficiency

- **92%** efficiency gain on new equipment
- LED lighting conversion [ongoing]

180 tons
of VOC eliminated
from emissions
since 2000

FUTURE VISION

75% of our
Campus is
Prairie-state

Solar project
with WE
Energies

More
energy-efficient
equipment

Testing of
hemp and
bio-plastics
