

# SERIGRAPH GUARANTEES DURABILITY

*Designing life-saving  
products that stand  
up to MRSA protocols*

“ No other vendor was even willing to attempt what Serigraph actually accomplished for us. ”

– Serigraph Customer  
Top Medical Device OEM

## CHALLENGE:

**Top Global Medical Device OEM required a product design with:**

- The ability to withstand the harshest chemicals in the hospital
- Smartphone size, touch screen patient monitor
- Waterproof edge seal
- Robust graphics with durable user interface

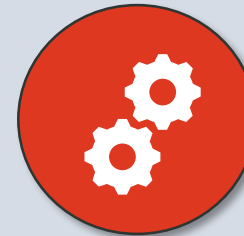

## SOLUTION:

Serigraph's disciplined launch team worked on highly engineered parts, delivering first-ever product construction for top cover. We took difficult-to-design & manufacturer parts, coupled with new & unique materials that met incredibly tough specifications. Serigraph's capacity to manage every step of the IML made us an ideal partner.

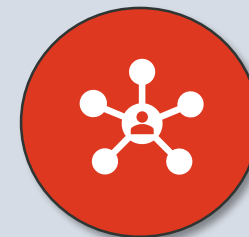

## RESULTS:

TECHNOLOGY  
ADVANCEMENTS

INNOVATION

SIMPLIFIED  
SUPPLY CHAIN

- Delivered highly innovative, first-ever product construction
- Supported tough specs on materials & measurements
- Thermoforming expertise that met all tolerances despite the hard-to-form, medical-grade material
- Strong customer collaboration to create new QC standards and processes
- One-source supplier with a track record of handling complicated IML
- Strong inter-vendor cooperation
